## Response to Amendment

The following is in response to the amendment filed on August 8, 2005.

#### **Double Patenting**

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

1. Claims 1-11 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-7 of U.S. Patent No. 6,491,788. Although the conflicting claims are not identical, they are not patentably distinct from each other because the only difference is the recitation in U.S. 6,491,788 of step (b) forming fibers from the pulp. As the present invention claims a process for making a composition for conversion to lyocell fiber, it would be obvious to one skilled in the art to further provide a step of forming fibers after making the composition.

All other claimed features are claimed in U.S. 6,491,788.

Art Unit: 1731

## Allowable Subject Matter

Claims 1-11 are allowable over the prior art as indicated previously.

### Response to Arguments

Applicant's arguments filed August 8, 2005 have been fully considered.

Applicant's arguments regarding the rejection of claims under 35 U.S.C. 112, second paragraph, set forth previously, are persuasive. Accordingly, this rejection has been withdrawn. Reference is made to the record of co-pending patent application 09/975,598, now U.S. Patent No. 6,491,788.

The double patenting rejections over co-pending applications 10/128,973 and 10/128,975 presented previously, have been withdrawn in view of Applicant's arguments, but a new double patenting rejection is given above.

Art Unit: 1731

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Hug whose telephone number is 571 272-1192. The examiner can normally be reached on Monday through Friday, 10:00 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571 272-1189. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
